

ETC Survey: Technology Obstacles To Your Online Instruction

Last 2 weeks of April 2020, 71 responses

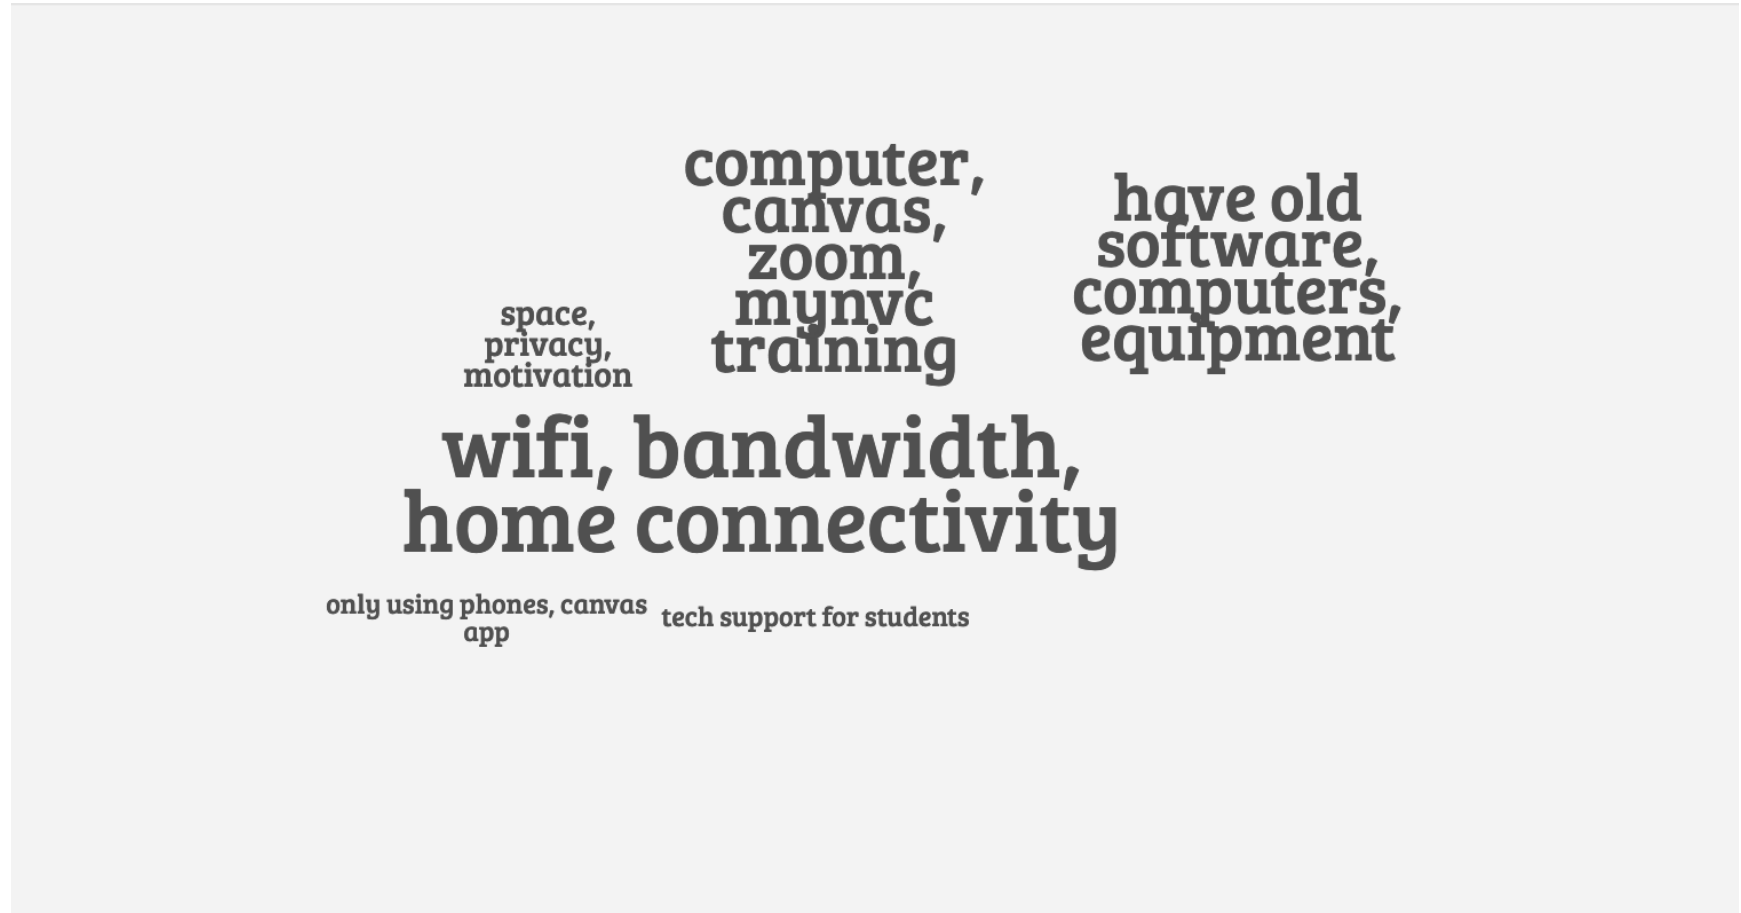

Question #1:

What is the largest technological obstacle you now face with all-online instruction?

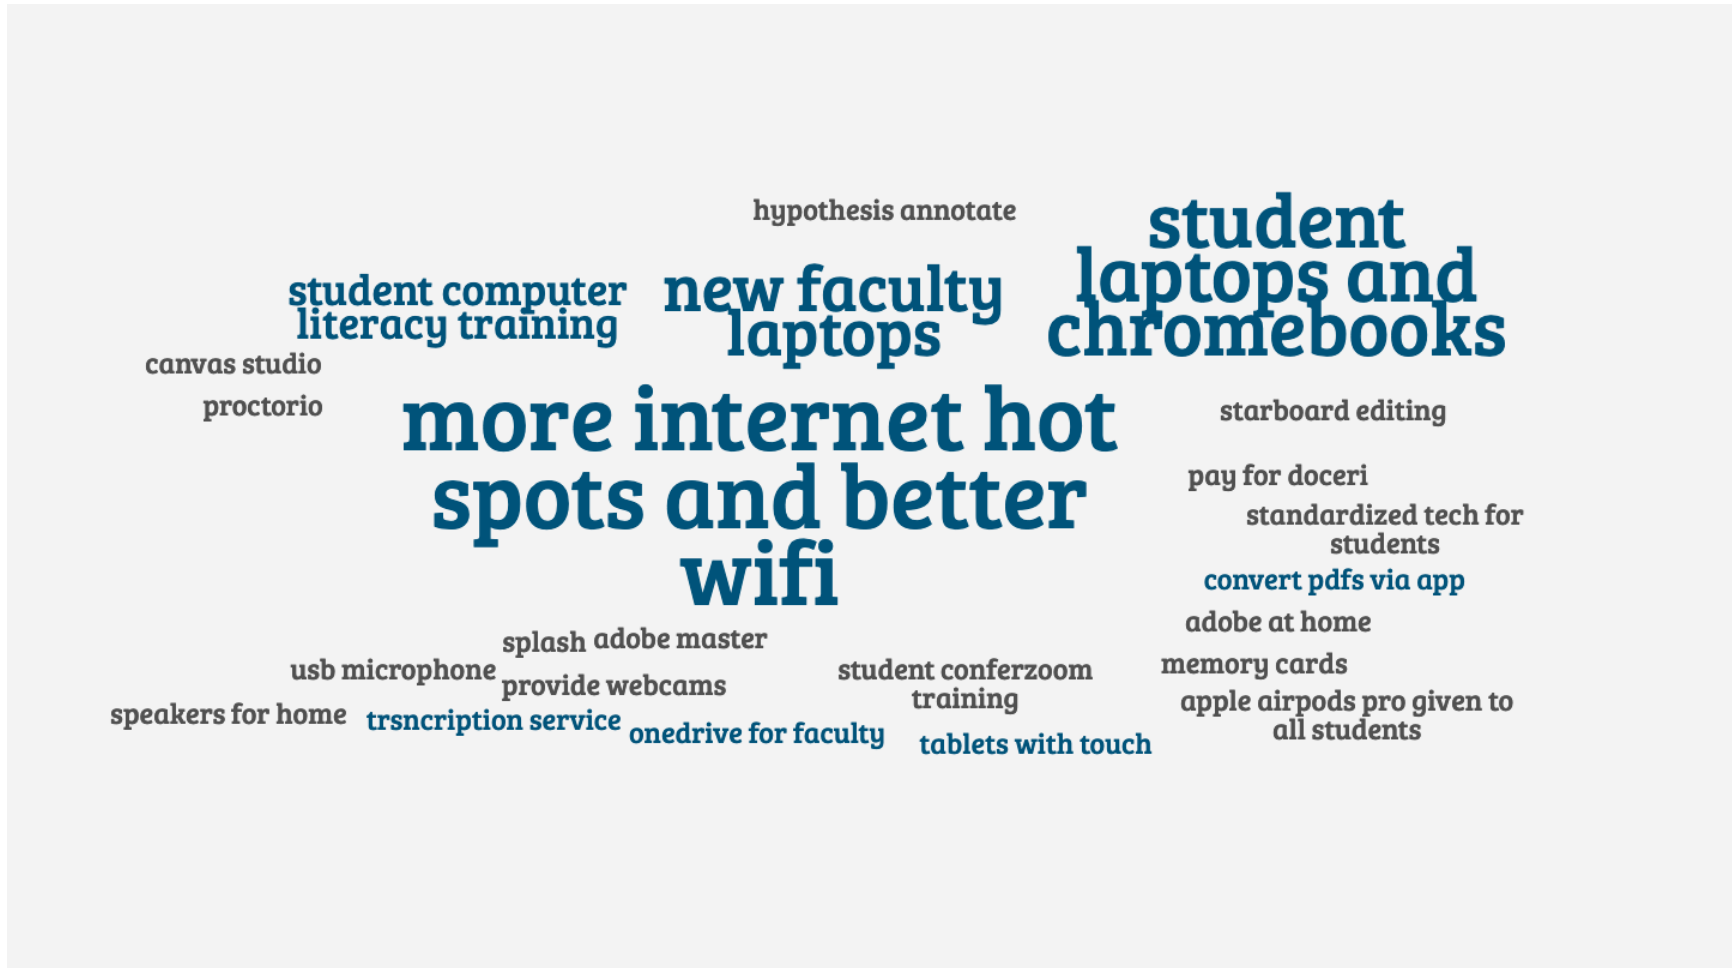

Question #2

From your interactions with students, what is the largest technological obstacle your students now face?

Question #3 :

Is there any hardware or software that could help with either obstacle above? (That you are aware of?)

Question #4

What further support would help your online instruction?

Question #5

Anything we missed?

A word cloud on a light gray background. The central and largest text is "compensation for increased workload". Other words are arranged around it in various sizes and orientations. The words include: "timely website updates", "updated computers", "consistent access to canvas sign on", "data on f2f and online", "email access at home", and "short tutorial videos".

timely website updates

updated computers

consistent access to canvas sign on

compensation for increased workload

data on f2f and online email access at home short tutorial videos
