

ETC Survey: Faculty Technology Support Fall 2020 53 respondents

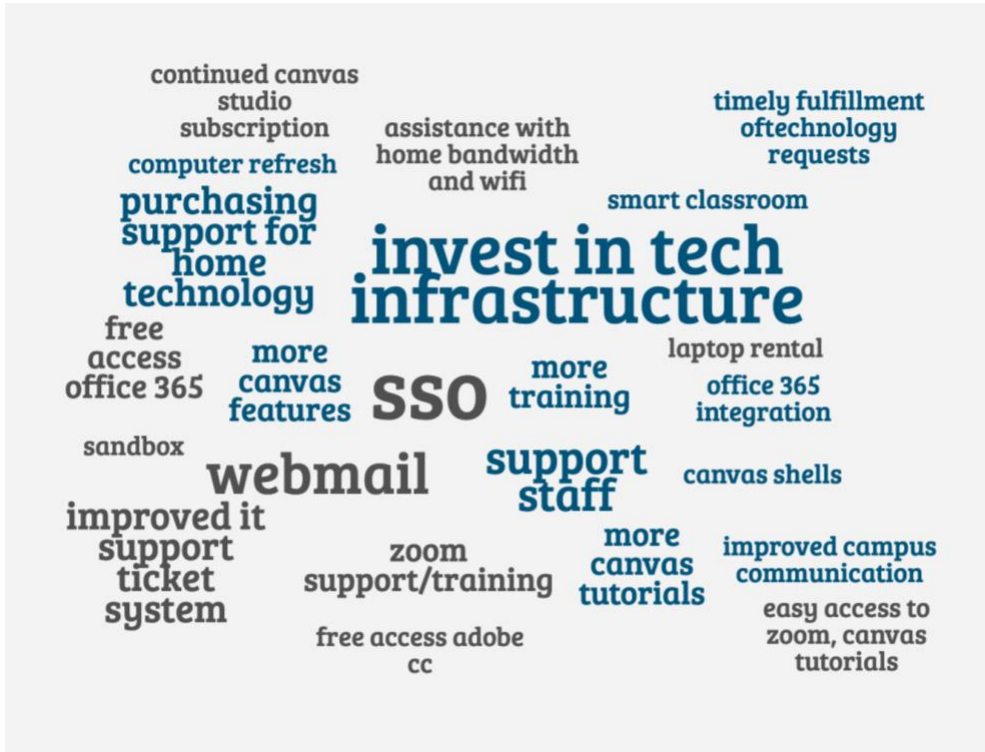

Q1 What technological supports have been successful in assisting you with online teaching?

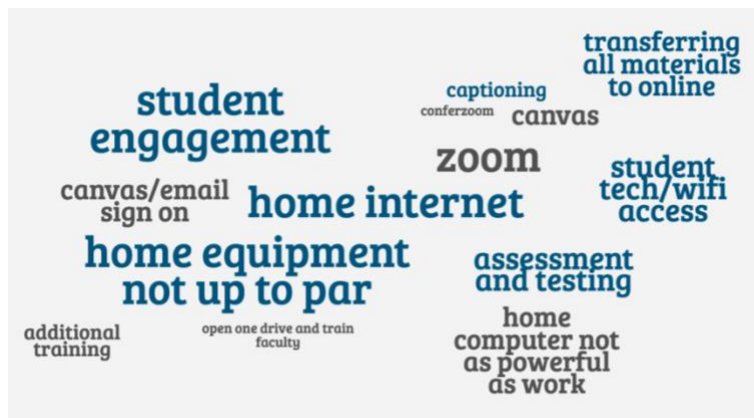

Q2

Q3 What technological support is still needed for your online teaching?

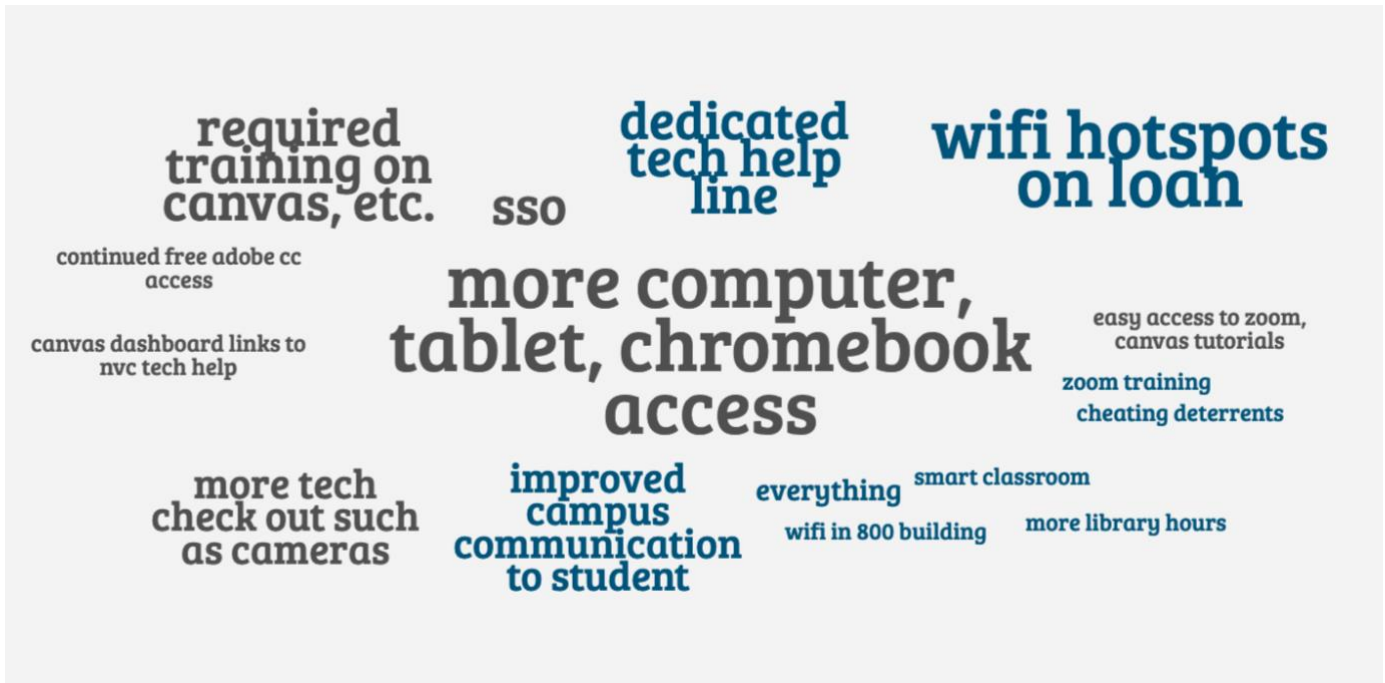

Comparison Spring 2020: What is the largest technological obstacle you now face with all-online instruction?

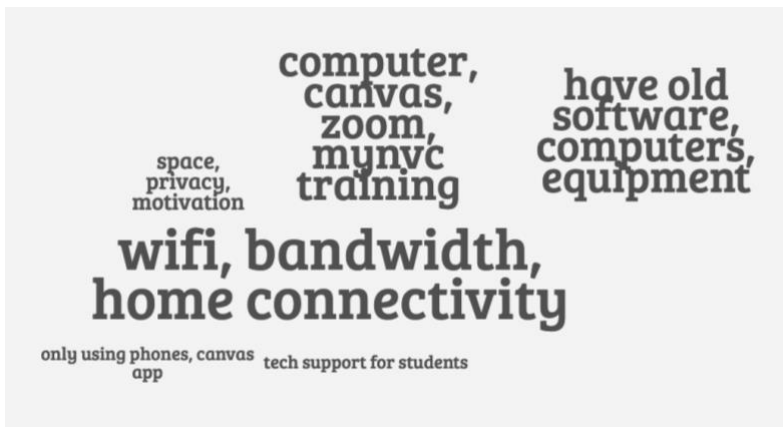

What further support would help your online instruction?

Q4 What technological support is still needed for your students to succeed in class?

Comparison Spring 2020: From your interactions with students, what is the largest technological obstacle your students now face?

Is there any hardware or software that could help with either obstacle above? (That you are aware of?)
