▶ Safari Books Online is a digital library worldwide for technology, creative and business professionals. In July, 2001, two of the world's most prominent technology publishers, O'Reilly Media, Inc. and The Pearson Technology Group, joined forces to create Safari Books Online. The premise was simple: compile the best technology books from the leading authors and publishers into an on-demand digital library that technology, digital media and creative professionals could quickly and easily search for reliable, definitive answers to mission-critical questions.

Today, Safari Books Online includes a vast repository of over 40 publishers worldwide and is the premier on-demand digital library providing over **24513** technology, digital media, and business books and videos online to academic and library users

▶ Napa Valley College Library along with our SNAP Library partners is able to offer access to a Custom Safari Books Online “Library” that contains a subset of **5,453** titles from Safari Books Online's overall content. Safari Books Online is a full-text database of online books and shortcuts.

▶ Short Cuts are expert-written, web-only content documents that provide details on a very specific topic or that introduce new technology or advances before a great deal of information is publicly available.

▶ You can access Safari Books Online from the McCarthy Library’s [SNAP Catalog](#). To search Safari e-books, simply type the word Safari followed by your keyword search term as the example below illustrates.

Database name: Solano/Napa Partners
Description: Books, audiobooks, videos, CDs & more..

Type in an author, title or subject and click "Search"

Napa Valley College—McCarthy Library (707) 256-7430
