

# Tip of the Week: Website

Napa Valley College - McCarthy Library

The John Muir Exhibit from the Sierra Club

Tip #38

December, 2015

The Club honors John Muir's memory and work on this website. The site offers biographical information, tributes, bibliographic resources, images, videos, and significantly more. Educational materials on John Muir as well as the environmental activities he nurtured are also available.

The site also brings together digitized research materials for Muir scholars studying the conservation movement of this period.

The [John Muir Exhibit](#) provides a good example of high quality information made available by the Sierra Club. The club's original founder, John Muir, was an internationally known conservationist whose work contributed to the modern environmental movement.

*" Everything is flowing -- going somewhere, animals and so-called lifeless rocks as well as water. Thus the snow flows fast or slow in grand beauty-making glaciers and avalanches; the air in majestic floods carrying minerals, plant leaves, seeds, spores, with streams of music and fragrance; water streams carrying rocks... While the stars go streaming through space pulsed on and on forever like blood...in*

*Nature's warm heart." —John Muir*

Environmental Education idea: [Keeping a Nature Journal](#) by Bonnie Gisell, PhD. Link to purchase [Field Notes booklets on Amazon.com](#).

Currently #1 Best Seller in Nature Conservation:  
[The Invention of Nature: Alexander von Humboldt's New World](#) by Andrea Wulf. Published September 2015. On order.
