

Tip of the Week:

Napa Valley College - McCarthy Library

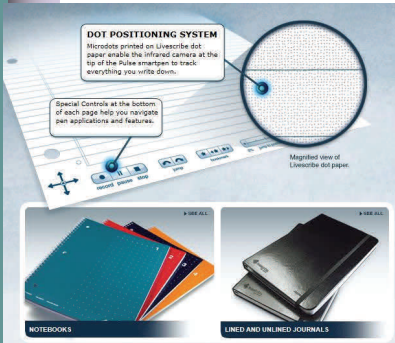

Brought to you by Librarians @ McCarthy Library

We don't normally promote particular products on the tip of the week, but this one is just too good to keep quiet about. It is called LiveScribe and it is a smart pen (actually a computer in a pen!) that saves your notes and recordings to your computer for fast, easy access. Watch this video to find out more about it:

Tip #51

December, 2020

This is a great tool for students who might miss important parts of a lecture on first hearing. This gives students the opportunity to recheck their notes by replaying the lecture in it's entirety.

A digital version of your notes and audio come to life as an interactive document called a pencast. Pencasts allow you to hear, see and relive notes exactly as they were captured. A very cool tool...
